Sergio Benvenuto

Conversations with Lacan

Seven Lectures for Understanding Lacan

Review

“Sergio Benvenuto brings a fresh look on Lacan and on psychoanalysis that couldn’t be more right. Right because it discerns extremely well what distinguishes from every ‘lacanianism’ and from every theoretical construction a concern for the real as an impossibility to give reason. It thus distinguishes what makes Lacan, before anything else, a thinker among thinkers.” ?**Jean-Luc Nancy**, is a French philosopher, Georg Wilhelm Friedrich Hegel Chair and Professor of Philosophy at The European Graduate School / EGS

“A conversation with Lacan is the last thing imaginable?he’s just so impenetrable, obstinate, clownish, exceptionally French! In this stunning, concise book, Sergio Benvenuto imagines the unimaginable, giving us a nondogmatic Lacan to converse, and even, play with. He turns Lacan’s tense flesh into feeling, life, and breath.” ?**Jamieson Webster**, psychoanalyst in New York, has written for the *Guardian*, the *New York Times* and is the author of several books
